

RIBOSAN

Cough Syrup

With Ribwort extract
 Fast relief from dry cough and sore throat
 Natural antibacterial effect
 Non-drowsy, alcohol-free

FOR ORAL USE ONLY

For the whole family

The natural healing power of Ribwort (*Plantago lanceolata*) has been used by generations to treat upper respiratory diseases and colds. In particular Ribwort has proven useful in the symptomatic treatment of oral or pharyngeal irritations associated with dry cough.

Because of its outstanding therapeutic qualities and its lack of side effects, Ribwort was awarded the title of "Medicinal Herb of the year 2014" by the University of Würzburg.

Doppelherz® aktiv Ribosan Cough Syrup contains a soft Ribwort extract that delivers natural antibiotic and active soothing substances. These form a film on mucous membranes of the mouth and the throat and help calm irritations, fight against inflammations and ease coughs.

Doppelherz® aktiv Ribosan Cough Syrup provides rapid relief from dry cough and helps to recover a healthy oropharyngeal mucosa.

| Dosage: | |
|---------------------------|---------------|
| Age | Daily dosage |
| 1-4 years | 3 times 5 ml |
| 4-12 years | 3 times 10 ml |
